

NFTY-SAR

Tree of Life

**By Annabelle
Maltsbarger**

What is it

The NFTY-SAR Tree of Life is my year long project to...

- Help improve TYG participation
- Stay connected to our values
- Reward good participation
- Build relationships between TYG Boards and Regional Board President

How it works for TYG's

Every month I will be hosting a general call to get updates from each TYG over the past month. During these calls these things will be added to the tree under their TYG...

- Total number of members in TYG
- Events that occurred in the past month and amount of members who attended along with positives and negatives
- Any big moments/milestones that have occurred

What it leads to

At the beginning of the year at LLTI a picture of the tree will be shown. At the end of the year the tree will be brought to Spring Kallah and hung up. In the end this will show...

- the growth between every TYG
- ideas for events and programs for all to see and use
- the TYG with the highest average percentage of participation at TYG run events will receive a reward

How it works for NFTY-SAR

For NFTY-SAR, after every Regional Board Call any big things that are going to occur or have occurred will be added to each branch that relates to it. The six branches are...

- קהילה - Community
- שוויון - Equality
- חינוך - Education
- יהדות - Judaism
- מנהיגות - Leadership
- חברות - Friendship

What it leads to

For Regional Board, this will help next years leaders...

- see where we lacked in following our values and where we were super strong
- aid in programming and Kallah themes for the upcoming year
- show NFTY-SAR's growth as a region with the amount being done more locally
